

Recording our programming would not be necessary for our stations. First, we do not broadcast indecent materials in any way. A) I personally would not tolerate it. B) We would loose a great portion of our advitersers. C) All such broadcasts are totally off limits for us and always will be. I have never had the problem, but to broadcast indecent material would be automatic termination of employment.

Thank you.

LeRoy Billy, Licensee

Second, to record and file programming would be almost financially out of reach for a station our size and in our market.
